Due to an error in the calculation of 2012 taxes from our software provider, an insufficient amount of federal income tax has been deducted from your monthly pension cheque, since January 1, 2012. Your monthly income tax deduction was \$13.69 per month less than it should have been.

Effective July 1, 2012 the correct amount of federal income tax will be deducted from your pension cheque. Since this correct amount results in \$13.69 more being deducted, you will see a change in your net amount of \$13.69.

I apologize for this error. if you have any questions or concerns, please contact Vicki Sampang at 494-1128 or e-mail her at <mailto:vicki.sampang@dal.ca>vicki.sampang@dal.ca.
